

## SPELLING

Below are words from the first 100 common words, practise spelling 8 each day. You could practise using different colours of pencil for each letter, or by **building pyramids** or by writing them in our **bubble writing** or by **playing spelling tennis**. We have used all these strategies in class. Choose the one that you prefer. On Friday, maybe an adult in your house, could give you a spelling test to see how you get on?
