

Spelling - this week we are practising words with a **prefix** at the front. A prefix is a letter, or a group of letters added to a root word. The prefix changes the meaning of the root word. LOOK - lucky = add a prefix (un) = unlucky

1. Look for your name at the top of one of the boxes.
2. Inside the box you will see the spelling words with prefixes you need to practise this week.
3. On Friday take the Sumdog spelling test - all 3 quizzes will be open to everyone, but you might be best to stay with the list I think best suited to you! That means I only expect you to do 1 quiz.
