

Primary 3/4 - Home learning time progression 1

STEP 1 - Check you already know these facts off by heart!

- * the number of days in a year (365)
- * days in a leap year (366), leap years happen every 4 years
- * the number of weeks in a year (52), the number of months (12)

Task 1 - Find a calendar and ask someone to ask you questions. Aim to spend about 5 minutes each day on this task. Example types of questions -

Which month comes after June? How many days are in October?

Which month comes 2 months after August? What date is the 3rd Friday in September?

Which month is 3 months before March? What is the day and date 8 weeks after 5/5/20?

STEP 2 - Check you already know these facts

Task 1 - Ask an adult to check you can do this -

- * read o'clock and half past the hour times
- * read quarter past/to times

Read times "past" the hour

Draw and colour six pictures - sequence your day for eg, draw a picture of you getting up, write the the time beside it, then you eating breakfast and write the time beside it, etc etc

If you need more practice you might find it useful to watch.
