

Bear Hunt Edinburgh Week Two

Share pictures from your Bear Hunt adventures on twitter #BearHuntEdin

On your own Bear Hunt see how many bears you can spot in the windows. Count them as you go...will you get to 10, 20...30...100? What colours are they? Are they big or small?

What about making a mini bear hunt? What can you use for grass, mud or snow? See what you can find in the house or collect natural things on your walks to make a picture, map or model...

How about growing some cress? Wet some tissue or cotton wool. Put it in an old yoghurt pot. Sprinkle over the seeds. Cover with clingfilm. Watch it grow – great 'swishy, swashy' grass!

Put some greenery/ flowers, your cress or something from your adventures in the window with your bear.
