We have chosen this lovely story by Shirley Hughes called 'Bonting'. This video is great with lots of questions for you to wonder about the story. Could you have a stone friend like Bonting and keep it safe in your pocket? Where might you find some lovely stones?

Do you know other stories written by Shirley Hughes? Mrs Hill's favourite one is 'Dogger'. Dave's sister, Bella, is so kind and helpful by sharing her teddy bear. Do you have lots of teddies in bed like Bella?

Who has caught our eye this week? **Zack** – you made a marvellous mud kitchen at home with Daddy. **Sydney** – we love your recipe idea for courgette chocolate cake. **Alice** – gorgeous Bear Hunt Adventures in the hills. **WELL DONE EVERYONE!**

Health & Wellbeing

Look out for details of **Mrs Campbell's Sports challenge** on your journal and the school website.

Take some time to practice **mindfulness outdoors**... noticing our physical connections and connecting with the world around us. Lie down outside and **look up at the clouds** (take care not to look directly at the sun). Look out for shapes and notice how the clouds change as they move along. Could you see this bear shaped one?

Inter Disciplinary (Topic) and Other Learning

www.bearhuntedinburgh.wordpress.com

has more exciting **transition activities** for all Nursery Children in Edinburgh. This week think about your school/nursery. (We know for some this might not be Colinton in August) Have you seen ribbons or signs on the gates? **Maybe you could visit and take a special stone, stick and your Bear on a journey there?** We love the painted 'Kindness Stones' and 'Pocket Hugs' we've seen popping up all over the city. Mrs Hill and Mrs Date have both been busy making them at home. Would you like to make one too? How could your stones share our message of **RESPECT RESPONSIBILITY & RESILIENCE?**

The Colinton School post-box is open outside the gates from Monday 8th June, if you'd like to send us some messages or pictures. Thankyou Mr Wilson for looking after the post box and our school for us while we can't be there xxx

Numeracy & Maths

Take your maths outdoors with a **nature Mandala**. These are circular patterns which represent the universe in Hindu and Buddhist art. They are made with natural objects or loose parts. It is easier to start in the centre and build outwards. Build as big or as small as you want. Look out for a step-by-step guide and tips on your Learning Journal.
