

Literacy	Numeracy & Maths
<p>Reading – read a book of your own choice for at least 15 minutes every day. Write a review of the best book you have read during Home Learning and, if you can, put it on the school twitter page for others to read.</p> <p>Listening and Talking - The Sun – look at the grid on the class page for literacy activities linked to the Summer Solstice which is coming up soon.</p>  <p>Writing – If you have not already done so - write a letter to tell me about the things you have been doing during this time at home – then take a walk along to the school and pop you letter in the post box. I look forward to hearing about your activities.</p>	<p>Division with remainders This week we are going to practise division calculations using the 'bus stop' method. We did this in school earlier this year – more practice now will help us all feel more confident. Watch this youtube clip – paying particular attention to what happens to the remainder at each stage of the calculation. https://www.youtube.com/watch?v=FAPcjdAhnrY Then complete the tasks on the Division Calculations grid on the class page.</p> <p>Symmetry :- The school maths focus is on symmetry and angles. Watch this clip to remind yourself about symmetry. https://open.online.clickview.co.uk/libraries/categories/26205208/videos/4991116/introducing-symmetry</p> <ol style="list-style-type: none"> 1.Do what the film suggests and go outside and look for symmetry. You can either enjoy just looking or record your findings by drawing or taking a photograph. 2.Here are some symmetrical drawings just waiting to be finished. You can either copy the designs into your jotter or, if you have a printer, you can print them out and then finish. <p>file:///D:/UserData/1185621/Downloads/t-n-1281-symmetry-activity-sheet-ver_3.pdf</p>
Health & Wellbeing	IDL – Let's get outdoors! (but stay safe!)
<p>Stay active - Have you tried yoga? Check out Cosmic yoga on Youtube or try the sun salutation noted on the literacy grid about the sun.</p> <div style="border: 1px solid black; padding: 5px; margin: 10px 0;"> <p><i>How are you all? Even though the weather has not been so warm this week I hope you have still been getting out and about. I wonder if you have spotted any baby animals? I have seen cygnets, ducklings and a fox cub and Benjamin told he had seen a baby magpie in his garden! Look carefully - what can you see this week? Mrs Anderson</i></p> </div> <p>Remember to always complete tasks to a class standard – your work should be neat and well presented.</p>	<p>There is a new Outdoor Learning grid on the class page. Some of the activities are the same as before but there are also some new ideas. Choose some activities to complete – remember you can do the same activity more than once! Always check with an adult before you go outside – many of the activities can be done with your family.</p> <p>French – try to learn the song mentioned on the literacy grid about the sun.</p> <p>Challenge yourself to use some of the French weather phrases that you know to describe the weather to someone in your family each day.</p> 

NB: Guidance, activities and ideas to support learning will be uploaded on our website for children who are also part of a 'Launch Pad' Group.

All questions and queries should be directed to: admin@colinton.edin.sch.uk

Benjamin

This week...

I was delighted to read Jeanne's Grace Darling diary.

I was thrilled with Benjamin's Lighthouse word list.

Lewis F cooked some delicious cupcakes.

I loved Stella's acrostic poem about resilience.

Looking forward to seeing more of your learning on Twitter or by email next week!

Send a letter!

The post box will be at the school gate each day - you can post letters to me to let me know how you are getting on with your learning. I'd love to hear from you and know what you have been doing and the things which you are enjoying during your home learning.
